

## Catchments, Corridors and Coasts January 13th – 15th 2010

Presented by the  
**Australian Association for  
Environmental Education (WA)**

Snorkelling in the ocean, walking in the bush, getting up close and personal with native fauna, sharing experiences with broad scale farmers – these are just some of the activities you can expect when you participate in the action packed Catchments, Corridors and Coasts (CCC) Program.

CCC provides a ‘snapshot’ of environmental education in WA from catchments, through corridors to the coast. It provides a rich experience, facilitating the development of networks with and between practitioners, and an awareness of the resources and support across WA to help address core environmental and sustainability issues in the State. Learn about environmental issues, what is being done by community groups and various levels of government, what resources are available and how we can all work together for a better environment.

It is a practical program, which focuses on learning through experience and skill development, while also reflecting the synergies between the environmental education practitioners in WA. CCC will provide a wealth of take home resources, which will form a toolkit for participants to use in their own workplace. All of the program content can be linked to the current West Australian curriculum.

### Who should attend?

The program is suitable for tertiary students or new graduates; community members & groups; youth organisations; teachers; student teachers; Sustainable Schools Initiative participants; private sector personnel, Environmental Officers; Local Govt. Officers; and State Govt. Department Officers.

You will gain: resources, practical experience, networking, skills and knowledge, learn some new fun activities with links to the curriculum, links to practitioners, toolkit for teaching and learning, or for environmental education as a management tool.

The three-day program is held at a range of exciting venues. Each day includes morning tea, lunch and afternoon tea.

### What will you experience?

#### Day 1 Exploring the Upper Catchment (Wednesday 13th January)

Red Hill Waste Management Facility; Wooraloo Brook LCDC; farm, salinity & NRM issues; Shire of Mundaring; Perth Hills Forest Centre; Western Shield; Kanyana.

#### Day 2 Enjoying the Corridor (Thursday 14th January)

Perth Zoo Native Species Breeding Program; Greening Australia; South East Regional Centre for Urban Landcare; Swan River Trust; Phosphorus Awareness Project; Canning River Eco Education Centre; Ribbons of Blue; River Guardians; Water Corporation Waterwise Schools Program; Environmental Technology Centre; Permaculture; Greywater re-use.

#### Day 3 At the Coast (Friday 15th January)

The Department of Fisheries' Naturaliste Marine Discovery Centre and the Western Australian Fisheries and Marine Research Laboratories; Padbury SHS Marine Studies; snorkelling, Coast Care; Australian Sustainable Schools Initiative, Millennium Kids; Evaluation & Conclusion.
