

Recycling at Home

Depending on where you live in Perth, the **RULES** for what you can put in your **GREEN** and **YELLOW** bins may be **different**.

Some items that have special requirements for disposal. These include:

Hazardous Household Waste

Dangerous chemicals –
Pesticides, Weed Killers,
Fertilisers, Paints, Turpentine,
Flammable liquids – petrol,
kerosene etc, Bleaches and other
cleaning liquids and Batteries

Construction and Demolition Materials

Building materials
including Bricks,
Concrete, Timber, Metal
beams, dirt and soil

Other Products

Mobile phones, Rubber
tyres, Car parts,
Medicines and Large
Household items – old
white goods, electrical
appliances etc

Check with your local council if you're
NOT SURE which bin to use for a waste item.

Check with your local council for the locations
of **TRANSFER STATIONS** within your local area

BE AWARE:

The rules
for how to
dispose
of your
household
waste may
change over
time. Always
read new
information
sent to you
by your local
council.

Most local councils are members of Regional
Councils and these Regional Councils are
responsible for managing household waste
within the Perth Metropolitan Region.
Each Regional Council use different processes
to manage the contents of the **green** and **yellow**
bins – so this means that the rules for each local
council may be **DIFFERENT**.
